

FD690 PLUS *LONG- AND REGIONAL-HAUL* Drive Radial

LONG LASTING & DURABLE

Recommended for use in single- and tandem-drive axle applications, the Firestone FD690 PLUS offers a 29/32nds tread depth for long original tread life. Multiple angled edges in each tread element, along with aggressive center lugs, bite through water to promote wet traction. Combine these features with outstanding casing durability and excellent retreadability, and the American-made FD690 PLUS goes the distance in over-the-road and regional-haul applications.

Firestone

FD690 PLUS FEATURES & BENEFITS

**A****SOLID SHOULDER RIB**

.....
distributes weight and torque evenly to fight irregular wear

B**AGGRESSIVE CENTER LUGS**

.....
help to improve traction in wet or dry conditions for the life of the tread

C**TIE BARS**

.....
control movement of center tread blocks to help minimize irregular wear, leading to longer original tread life

D**MULTIPLE GRIPPING EDGES**

.....
provide biting edges that help promote wet traction

29/32NDS TREAD DEPTH

for long original tread life and improved traction

WIDE CENTER GROOVES

channel water out of the footprint for wet traction

CAP/BASE COMPOUNDING

combines a slow-wearing cap compound with a cool-running base that shields the casing from damaging heat to enhance retreadability

FOUR FULL-WIDTH STEEL BELTS

help casing durability and enhance retreadability by combating casing penetration
